General

Colour	Black
Construction	Plastic
IP Rating	IP55

Detection Angle	180°
Detection Range	12m

Dimensions

Depth	135mm
Length	185mm
Width	70mm

Electrical

Input Voltage	240V
Output Voltage	240V

The **Wired PIR Sensor Kit 240V** is a **Wise Transmitter** with a wired **180° 2300W PIR Light Controller**. The Wise Transmitter enables the PIR to send wireless signals to any Wise Receiver. Ideal for when you cannot install any cables between your sensor and your lighting circuit.

The transmitter is small enough to be placed in many locations, for example, in the ceiling, in the wall either through it, behind a recessed light fitting or in a surfaced mounted fitting. The transmitter should be placed in a suitable insulated box.

It can be fitted into a small waterproof box to allowed it to be used outside for your garden lighting, garage doors and water features.

The transmitters are designed to be simple to install, easy to use and most importantly, reliable.
