The **Can** up-light gives a fixed upward beam of light ideal for producing simple but effective mood or feature lighting. It is free-standing, and plugs into a mains supply, so can be easily moved around. This fitting can be used with most Edison screw cap lamps but is more effective with halogen PAR or reflector lamps.

A plug is not supplied with this product and must be purchased separately.

If individual dimming is required an in-line dimmer must be purchased. Please refer to the dimmers minimum and maximum loads so that a lamp with corresponding wattage is used.
