

The **Distributed Power Supply Unit** provides maintained operation of 20 x 1W light pods and drivers with a 3hour duration emergency lighting back-up.

Emergency packs are used in commercial buildings as a safety precaution to power outages, so that people will be able to find their way out of a building in the event of an emergency.

Maintained Emergency Lighting: The emergency light units are illuminated at all times using the same lamps for both normal and emergency operation. Please note maintained fittings can be wired as non-maintained.

Non-Maintained Emergency Lighting: A non maintained fitting is not illuminated until the event of power failure.

LDTH/M3/24-20

20W Maintained
Quicklink: Q285A

General

Colour	Grey
Construction	Steel

Battery Life	3 hrs
Emergency Type	Maintained

Dimensions

Battery Depth	90mm
Battery Length	150mm
Battery Width	95mm
Depth	190mm
Length	400mm
Width	300mm

Electrical

Maximum Wattage	20W
