

The **Feelux DSI / DMX 4 Channel Interface** uses all three common input protocols. This means that you can dim your dimmable fluorescent fittings with the following control systems; Lutron, Cbus, Leax, I-Light, Crestron, Rako, Helvar, Dynalite, etc.

DSI will dim all outputs together.

DMX will operate four separate circuits.

The maximum connecting load for individual output is 10 pieces per channel and 400W per unit.

Features

- Translates standard DMX 512 protocol
- Translates DSI protocol
- Frequency: 50/60Hz
- Current: 20 amp terminals
- Mechanical fixing: DIN rail clip lock

DIMSLIM DTOPWM01

Black 3500W

Quicklink: Q1267

General

Colour	Black
Construction	Plastic
IP Rating	IP00

Dimensions

Depth	66mm
Length	209mm
Width	86mm

Electrical

Maximum Wattage	3500W
Voltage	240V
