# Gip Extrusion Profile - Ceiling

Gip Surface Extrusion Square Kit

Aluminium 2000mm

The **Gip Surface Extrusion Kit** comes in 1m or 2m lengths and is used to house our TAPE100 or TAPE30, which keeps the tapelight safe and out of the way.

Included with the Gip Surface Extrusion Kit is an aluminium extrusion, diffuser and two end caps.

Can be used in conjunction with the **Teknik Extrusion** ideal for when recessing into plaster board.

This extrusion has been anodized.
