

FRT100 QR111 WHT

75W White
Quicklink: Q2E91

General

Cap	G53 / AR111
Colour	White
Construction	Steel
Dimmable	Yes
IP Rating	IP20

Dimensions

Cut Out	167 x 167mm (Length x Width)
Depth	104mm
Horizontal Rotation	45°
Length	160mm
Vertical Rotation	45°
Width	160mm

Electrical

Maximum Wattage	75W
Voltage	12V

The **Grid Trimless Single AR111** is an adjustable downlight that can take up to a 75W lamp, which can be angled in any direction.

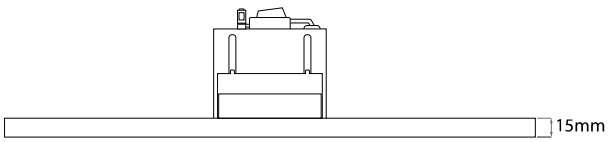

This product comes with a plaster frame which is designed to be fitted into the ceiling and plastered in before the light fixture is put into place. The downlight fits into the hole in the ceiling and will rest on top of the plaster frame. Once the light is fitted there will not be a visible trim.

The plaster frame can be purchased separately to pre-fit and plaster over and then install the downlight later on.

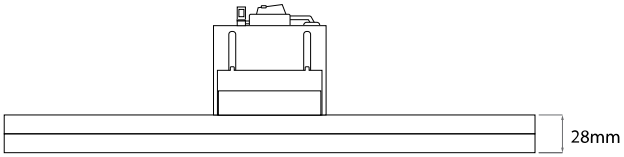

This version takes a low voltage AR111 75W maximum lamp (available separately). If you wish to see detailed installation instructions, please click on the technical tab.
