The **LED Grid Trimless Single AR70** is an adjustable downlighter with a **Reality AR70 LED 8W & Driver**.

This product comes with a mounting ring which is designed to be fitted into the ceiling and plastered in before the light fixture is put into place. The downlighter fits into the hole in the ceiling and will rest on top of the mounting bracket. Once the light is fitted there will be no trim unlike the similar Grid Range of products.

The **Dimmable Reality AR70 LED 8W and driver** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result is truly warm and gives that arc of light we are all used to seeing with halogen.

The AR70 Reality Lamp is equivalent to a 75W AR70 halogen lamp and, like a halogen lamp, is dimmable.
