Requires Driver	Yes

Light Characteristics

Beam Angle	40°

The **Phantom Round 40° RGB Add On** is a small recessed uplight with a 2m Coupler lead. It is rated IP68, allowing it to be fitted into wet areas such as shower cubicles or outside in decking. It can be placed in zones 0, 1 and 2 of bathrooms, offering full flexibility in its placement. Constructed from marine grade steel and frosted glass.

The fitting comes complete with spring clips to mount into hollow walls and floors. It also comes with a plastic mounting box for use with brick and other solid surfaces. If used outside, it is strongly advised that *Heat Shrink* is used to protect the wiring from water.

This light does not require any wiring as it is a uses the plug and play system. The power cable and endcap will be needed to be connected to make the light work.

The minimum required products needed to operate multiple fittings are:

- WISERGB 350MA M: Wise Chameleon Master
- SPEC ENDCAP: End Cap
- RS2524: LED Driver
- SPECPC1: Power Cord
- Wise 7 Channel Switch or Wise 7 or 42 Channel Remote
