

RIS-REMOTBAWM 1G

White
Quicklink: QF20

LAST ONE LEFT IN STOCK!

The **Rania 1 Gang IR Remote** when used with the **rania IR Dimmer** switches allows you to change the light level at any time from anywhere in the room from the palm of your hand.

The big top button brightens lights smoothly to full intensity. The one underneath this within 3 seconds, fades lights to off. The top small button brightens lights, while the one under this dims lights. Finally, the silver button recalls your favourite light level. To set a light level, simply hold this button for 3 seconds and whatever light level is currently set will be programmed to this button.

The remote takes 2 AAA batteries (included).
