

The Mode Slider Dimmer (SD1500) is designed to provide a high standard of smooth and stable dimming of mains controlled loads.

The Mode SD1500 is compatible with all types of resistive and inductive mains dimmable loads including LED, Low Energy, Halogen, Low Voltage and Neon Lighting.

The unit has a brushed aluminium front panel and is supplied with a Marshall Tufflex two gang plastic surface box for ease of installation, as shown below.

- Self contained slider dimmer.
- 1500W max for tungsten/halogen loads.
- 300W max for compatible LED loads.
- Operates Leading Edge Mains Dimmable lighting loads only.
- Panel mounted fuse and LED indicator.
- Quick blow fuse for complete triac protection.
- Easy to install.
- Complies with EC EMC and Low Voltage Directives (CE).
- 2 year warranty.
