

This module can be used to custom make your own switch/dimmer as the module is manufactured to fit in common available wall plates and back boxes. It can also be used as a direct replacement for faulty or broken modules in existing switch/dimmers.

This module includes adaptor plates for the **MK Gridswitch system**, the **Delta System**, the **Crabtree System** and the **MEM System**.

This product requires a standard 35mm back box, but for multiple installations a 47mm box may be preferable.

Please note: Technical information is available on this product see tab above.
