

The **Ultralife Halogen MR16** has a lifetime of 10,000hrs with a reflective aluminium coating applied to the inner surface of the lamp. This reflects heat and light away from the light fitting both protecting it and increasing its efficiency.

Low voltage halogen lamps produce a clean and crisp light versatile enough for a variety of applications but particularly suited to display lighting due to their close to natural colour rendering.

The Ultralife Halogen MR16 lamp is fully dimmable.

## M258 ULTRALIFE

50W 36°  
Quicklink: Q2B93

### General

Cap GU5.3 / MR16  
Construction Clear Glass  
Dimmable Yes

Dimmable Yes

### Dimensions

Diameter 50.7mm  
Length 44.9mm

### Electrical

Voltage 12V

### Light Characteristics

Beam Angle 36°
