ICE - LED Crystals

Our Ice LED Crystals are a range of moulded and cut glass LED downlights that produce stunning decorative lighting effects. Each elegant fitting is finished to a high standard with a chrome finish base.

When illuminated they cast a pattern of light back onto the surface into which they are recessed. The results are truly dazzling.

An alternative to fibre optic these LED crystals can be used to light cinema rooms, entrances, hallways, living spaces and bathrooms.

The crystals are available in warm white giving a candle effect or cool white giving a daylight appearance. An RGB option is available to create different moods with colours that can be controlled with simple wireless and DMX systems.

The fittings come with a ceiling spring for fixing into plaster board; a burial tube is supplied for recessing into more solid material, such as brick or concrete.

An LED driver is needed to power this product.

ICE - Small Crystals

These crystals come complete with fixed heads and they are available in two styles: warm or cool white.

	Cool White	Warm White
Wattage	1W	1W
Amperage	350mA	350mA
Ceiling Cut Out	14mm	14mm
Beam Angle	15°	15°
Lumens	130 lm	97 lm
Lumens Per Watt	130 lm/W	97 lm/W
Temperature	6000 K	3000 K
Colour Rendering Index	75	80
Dimmable	Yes	Yes
Estimated Life	50,000hrs	50,000hrs
IP Rating	IP55	IP55

Power Supplies

Switching Driver 10W (8 x fittings)
DC350mA 10W

Dimming Driver Resistive (15 x fittings)
DCJOLLY MD 240V

Dimming Driver 1-10V (13 x fittings)
DCJOLLYMINI 1-10

Dimming Driver 1-10V (22 x fittings)
DCJOLLYMAXI 1-10

Wireless Dimming

Wise Dimming Receiver 350mA 21W
WISESCENE 350mA

Wise Intense Wireless Switch 1 gang
WISE INTENSE 1

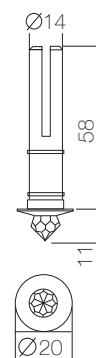

ICE - Starlite
