

TAPE 9088 9MM

50m White

Quicklink: Q2F8D

Dimensions

Length	50m
Width	9mm

The **9mm Double Sided Fixing Tape** is used to attach strip and tape lights to surfaces like walls and furniture. The adhesive system used on this product provides good adhesion to both high and low surface energy substrates. The initial tack provided ensures that a bond of good integrity is achieved soon after application.

Not suitable for outdoor use but fine for bathrooms.

Bond Build-up: The bond strength increases as a function of time and temperature.

Temperature/Heat Resistance: Adhesive 375 is usable for short periods (minutes, hours) at temperatures up to 300°F (150°C) and for intermittent longer periods (days, weeks) up to 195°F (90°C)

Lower Temperature Service Limit: -10°F (-23°C)
