The **Happy Table** can give you instant colour change in any room. It stands upright and simply plugs into any 13A socket. The 5W LED can produce bright colours to change the colour of your room. The top of the Happy Table can tilt 30° in any direction.

The Happy Table is controlled with the required remote control. simply point the remote at the light and choose from 16 colours including white. You can select 4 colour scroll modes, these are fast and slow colour stepping and smooth colour scroll. Using the remote you can select four different dimming levels and turn the unit on and off.

Only one CCRGB remote is required to control all of the fittings. The remote does not change every fitting simultaneously, it is required that you set each fitting to your desired setting individually.

The Happy Table can be used as a night light. It doesn't get hot, it stays cool to touch. It only uses 5 watts which means its cost-effective.
