Colour	White
Construction	Plastic
IP Rating	IP65

### Dimensions

Depth	67mm
Length	352mm
Width	110mm

### Electrical

Maximum Wattage	6W
Voltage	240V

### Light Characteristics

Colour Temperature 4000K Cool White

The **Emergency LED Bulkhead IP65** is a 6W surface wall light that comes with a clear diffuser and a legend kit (20mm Gland). The LED Bulkhead has 16 integral LEDs and has an IP rating of 65 That allows it to be placed anywhere outside or inside.

The **Emergency LED Bulkhead IP65** is a maintained, energy efficient 6W integral LED, polycarbonate body for use on the wall or ceiling. Its attractive design is suitable for interior applications and its weatherproof (IP65) construction means it is also ideal for exposed external applications.

Emergency lights are used in commercial buildings as a safety precaution to power outages, so that people will be able to find their way out of a building in the event of an emergency.

**Maintained Emergency Lighting:** The emergency light units are illuminated at all times using the same lamps for both normal and emergency operation. Please note maintained fittings can be wired as non-maintained.

**Non-Maintained Emergency Lighting:** A non maintained fitting is not illuminated until the event of power failure.
