Voltage	240V

The **Festoon String Light 240V** is a 15M exterior string light. There are a total of 40 Lampholders on the string with a distance of 290mm between them. Each lampholder has rubber rings that tighten around the lamp allowing them to have an IP rating of 44 making them ideal for outdoor use.

These Festoon sets can be linked together thanks to the plugs at the end of each set with one end to be linked to the plug cable and the other to be linked to other sets to make a maximum wattage of 1000W. If using 5W LED Bulbs, five sets can be joined.

Please Note: Bulbs are not included.
