This product is widely used in the illumination and decoration of the outlines and patterns of buildings. It is flexible, unbreakable and pressure resistant and can be cut, extended, twisted and formed into any imaginable design.

Please note that **Neon Ropelight** can only be cut where the silver dot appears on the tube. This means that this product can be cut every 1m.

Maximum length is 50m reel.

Please note the given price is for each 1m piece of ropelight.

When mounting **Neon Ropelight** we recommend using our Neon Ropelight mounting clips.

Please Note: Once Ropelight is cut cannot be returned.
