The **Flow Midi Pendant** is precision engineered to ensure that the glass surface is in a geometrical pattern to produce multiple facets that reflect the internal light, creating a beautiful sparkling effect.

The shade diffuser is constructed from 24% lead glass to produce the unique effect. The fitting is completed with chrome detailing and a chrome effect ceiling rose. A 100W E27 mains voltage lamp is available separately.

This fitting comes in two other different sizes. A matching wall light is also available.
