

LED G4

G4 LED 1.5W 120lm Switching 12V
1.5W (=15W) 2700K Warm White

MR. RESISTOR®
Lighting Specialist Est. 1968

The LED G4 is designed as a direct retrofit replacement for halogen G4 lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents (15W) but is up to 90% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

General

Cap	G4
Colour	White
Construction	Plastic
Dimmable	No

Dimmable	No
----------	----

Electrical

Energy Efficiency Rating	A+
Maximum Wattage	1.5W
Voltage	12V

Light Characteristics

Colour Temperature	2700K Warm White
Halogen Equivalent Wattage	15W
Lumens	120 lm
Lumens Per Watt	80 lm/W
