

GU10 PENDANT ADP

White

Quicklink: Q4C0C

General

Cap	GU10
Colour	White
Construction	Plastic

Dimensions

Diameter	50mm
Height	70mm

Electrical

Voltage	240V
---------	------

The **GU10 Downlight to Pendant Adaptor** converts existing GU10 downlights to pendants. Simply wire a 2 core flex into the adaptor, install the adaptor as a normal GU10 lamp, fit a ceiling rose if desired to complete the look of a pendant then add a BC or E27 lampholder.

The adaptor will accept 2 core flex only in 0.5 and 0.75 sqmm conductors.

Always consult a qualified electrician if you are not familiar or experienced with electrical wiring safety.
