Ei103C

9V Battery Powered White

Quicklink: Q2B6E

The **Ei103C** is an Heat Alarm, powered by a 9V Alkaline battery

The alarm gives a fire warning when the temperature at the unit reaches 58°C. Heat alarms are designed for use in kitchens and garages, where the use of Optical or Ionisation alarms would lead to unwanted nuisance alarms

General

Colour White

Dimensions

Depth 58mm

Length 140mm

Width 125mm

Electrical

Voltage 9V

Interconnectable with up to 12 battery powered alarm

- Test button checks circuitry, sensor and sounds horn
- When interconnected, an alarm activation on one alarm will trigger all other interconnected alarms (only the triggered alarm will flash a red indicator)
- The alarm will emit a beep every 40 seconds to indicate that the battery is depleted and needs replacing
