

Smart Dimmer Switches

Intelligent Wi-Fi Controlled Dimmer Switch
White 220W

MR. RESISTOR[®]
Lighting Specialist Est. 1968

SM DIM/1G

White 220W

Quicklink: Q5BE9

General

Colour	White
Construction	Plastic

Dimensions

Depth	43mm
Length	86mm
Width	86mm

Electrical

Maximum Wattage	220W
Voltage	240V

Enhance your standard dimmable lamps with smart connectivity with this touch-sensitive Wi-Fi dimmer control switch.

Perfect for transforming current lighting circuits into smart controlled lighting with added traditional dimmer functionality the Intelligent Dimmer is ideal for homes, apartments and hospitality projects.

This touch-sensitive dimmer switch provides traditional switch functionality and the ability to effortlessly use voice control to instruct lights to turn on/off, dim down or increase brightness via a compatible smart home hub or the Tuya App.

Users can quickly and easily control lights via the world-leading Tuya Smart App.

A key feature of the Intelligent Dimmer switch is the ability to turn dimmable traditional and halogen lamps into Wi-Fi controllable lamps.
