## LEDGOLF4W BC FR

4W 2700K Warm White  
Quicklink: Q4CA5

The **LED Golfball BC/B22 4W** is designed as a direct retrofit replacement for halogen BC lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is up to 80% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

### General

Cap	BC / B22
Construction	Aluminium / Plastic

### Dimensions

Diameter	42mm
Length	76mm

### Electrical

Energy Efficiency Rating	A+
Maximum Wattage	4W
Voltage	240V

### Light Characteristics

Colour Rendering Index	80
Colour Temperature	2700K Warm White
Lumens	270 lm
Lumens Per Watt	68 lm/W
