LED GOLFBALL SES

3.5W 2800K Warm White
Quicklink: Q41B8

The **LED Golfball SES/E14 3.5W** is designed as a direct retrofit replacement for halogen BC lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is up to 80% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.
