

This LED Rechargeable Sensor Light is the newest version on the market with USB-C and Function Button. It is a combination of sensor modes and an Always On mode. ONLY Motion Sensor and Motion & Light Sensor, which adopts the wireless motion sensor (PIR) technology, automatically turn on when motion is detected within sensing range in dark place and automatically turn off after 20 seconds of no motion, or also just detect motion, then it will automatically light on. Perfect for your bedroom, stairs, hallway, kitchen, closet, cabinet, wardrobes or other dark places. The sensor light has three angles to adjust to make it more versatile and suitable for various spaces and purposes.

Function:

- Always On Mode: Light for the long light state.
- Motion & Light Sensor Mode: Under dark enough condition, Automatically powers on when motion is detected within 3 meters, automatically powers off after 20 seconds of inactivity.
- Only Motion Sensor Mode: Automatically powers on when motion is detected within 3 meters, automatically powers off after 20 seconds of inactivity. Not only powers on in dark, but also in daytime. Set up your desired brightness level (40% or 100%) in sensing state.
- Easy to install: No tools or screws to install, stick directly by double-sided tape adhesive and magnetic strip.
- Power supply: Built-in lithium battery, can be charged directly by USB-C cable (included)
- Long serving life: Ultra-high conversion efficiency make this light's battery life is long, offers 80,000h life.

MOTION 240MM
