The **Osram ST151 Fluorescent Starter** is commonly used as a lamp starter for 18W T8 fluorescent tubes that are located in series (block of 4 in most office buildings). This ST151 Starter can be used as a series starter 4W-22W at 240V or for single-tube operation at 110V. ST151 starters are suitable for: 110/130 V (AC), 4-22W single applications 220/240 V (AC), 4-22W series applications 220/240V (AC), 4-6-8-15-18-22W single applications 220/240V (AC), 18W single application (ST151 recommended for optimal performance).
