

SRC171 CONTROL

24V 300W

Quicklink: QE98

The programmable **SRC-171 LED RGB Control** has a 24V output suitable for controlling a range of 24V colour change lighting products. It has a variety of colour mixing programs to control colour, speed and strobe, all of which are adjustable. Given the complexity of the effects it can produce the SRC-171 LED RGB is very simple to use and can itself be controlled by any DMX system.
