Dimensions

Length	208mm
Width	63mm

Electrical

Maximum Wattage	3.5W
Voltage	240V

The Three Circuit Track Emergency light is a non maintained Emergency luminaire supplied with track locking mechanism and tamper proof enclosure.

Three circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
