

Wall Fan

Wall Fan with Remote Control and Timer

White / Grey Plastic

MR. RESISTOR®
Lighting Specialist Est. 1968

The 16" (40 cm) Wall Fan with remote control and timer features 3 speed settings and oscillating function for wider distribution with an adjustable fan head angle to ensure that this fan really hits the spot. The base is easily fixed to the wall, keeping the floors and desktop clear. The simple push button controls for speed, mode and power, with lights to indicate your chosen settings, are an alternative to the supplied remote control with timer, for total convenience. The sleek, modern design and quiet operation make this attractive Wall Fan ideal for home or small office use.

- Modern design with quiet operation is ideal for the home or office
- Timer and Remote Control for total comfort control
- Adjustable fan head for optimum comfort
- Oscillating function for wider air distribution
- 3 Speed/Mode settings and simple button controls
