

The **Wise Pod IR Interface** is used to convert the radio signal to infra-red, meaning you can use systems such as universal remotes to control your Wise Controls lighting.

The Wisepod IR Interface has been tested and proven to work with the following models of universal remote controls:

- Philips Pronto
- LG
- Logitech

Also compatible with certain models of the following brands; Philips, Sharp, Sony, Panasonic, Samsung, Thomson, Toshiba, ITT, Nokia, Grundig and Hyundai.
