

The **Wise Rail DMX/DALI 12V/24V** is a dinrail mounted colour changing receiver for use with our extensive range of Wise transmitters. The system can be powered by either 12V or 24V and will work with a range of RGB fittings up to a maximum loading of 150W at 12V, or 300W at 24V.

The DMX/DALI Interface brings Wise Controllers together. You can now control the Wise Chameleon from either your DMX/DALI control system or your Wise wireless switches, giving you the benefits of both DMX/DALI wired and Wise wireless controlling.
