The **Reality GU10 LED 5W Retro** is an LED lamp that matches a halogen lamp in terms of light source and aesthetics. This is achieved with the use of a single Cree LED chip with a reflector built around it. The result gives that arc of light we are all used to seeing with halogen.

The GU10 Reality Lamp is equivalent to a 50W GU10 halogen lamp and, like a halogen lamp, is dimmable.

Key Features

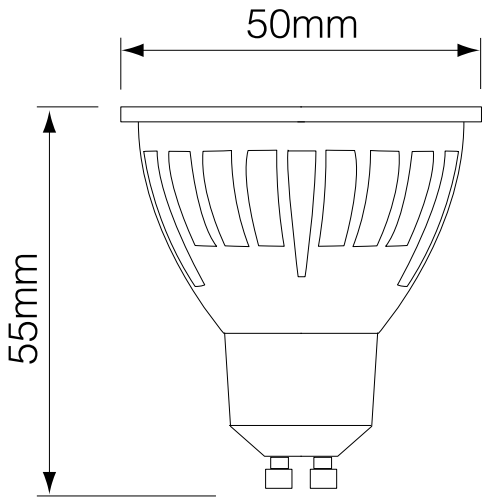

- Replicates halogen reflector
- LED positioned further back for anti glare
- Complies with October 2010 Part L regulations
- Fully dimmable with leading and trailing edge dimmers
