LEDPAR30G 60D WW

8W 3000K Warm White

Quicklink: Q3FD4

The LED PAR30 is designed as a direct retrofit replacement for halogen PAR30 lamps. It has a comparable light output and beam spread to its incandescent and halogen equivalents but is up to 80% more energy efficient and has a far greater life span. The LED technology used in this lamp give it the comparable benefits of being entirely mercury free, producing little or no heat and having no ultraviolet or infra-red light in its output.

General

Cap	ES / E27
Colour	Silver
Construction	Plastic
Dimmable	Yes

Dimensions

Diameter	96mm
Height	92mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	8W
Voltage	240V

Light Characteristics

Beam Angle	60°
Colour Rendering Index	82
Colour Temperature	3000K Warm White
Lumens	650 lm
Lumens Per Watt	81 lm/W
