The **Series 2 AR70 LED with driver** is a powerful lamp, making it an ideal choice for various lighting scenarios - from showcasing products in a showroom, highlighting artwork, to creating a warm ambiance at home. With its dimmable functionality, you can effortlessly adjust the lighting to create the ideal ambiance for any setting. Series 2 AR70 LED offers a high Colour Rendering Index (CRI), ensuring that colours appear vivid and true to life, enhancing the aesthetics of any space.

Powered by a top-tier CREE LED chip which it is known for its superior performance and durability. This ensures that the Series 2 LED AR70 delivers consistent, high-quality light output.

AR70 Reflector lamps are ideal for spaces with high ceilings, providing excellent illumination without glare. Their high brightness and focused beam ensure effective lighting from a distance, while the anti-glare design offers a comfortable and visually appealing environment. These lamps are extremely versatile, making them perfect for various settings, including retail, hospitality, galleries, and residential areas.

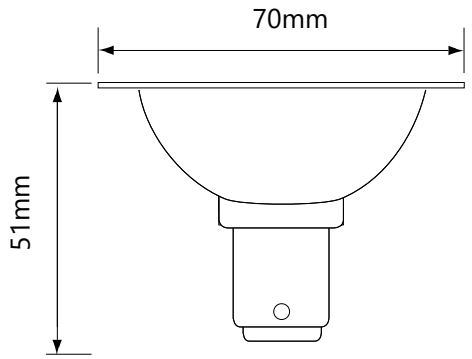

The Series 2 LED AR70 is available in a variety of beam angles and light temperatures, giving you the flexibility to customize your lighting to meet specific needs.

**Please Note:** This LED lamp comes with an automatic one year warranty as standard.
