Operating Temperature	-10°C ~ +55°C
Radio Frequency	868.3 MHz
Receiver Range	100m

Dimensions

Depth	9mm
Height	86mm
Width	86mm

Electrical

Replacement Battery	CR2430
Voltage	3V

The 2 channel **Sharp Switch** can be used to control any of the receivers in the Wise Controls range. The function of the switch, and the button, depends upon the function of the wireless receiver it is programmed to. Therefore a single button can be used for a variety of functions including, but not restricted to; on/off, dimming or master off only.

Wise switches are surface mounted so can be positioned almost anywhere. They are battery powered and a CR2430 battery is included with each unit. The battery life lasts up to 5 years.
