Operating Temperature	-10° +55°C
Radio Frequency	868.3 MHz

Dimensions

Depth	48mm
Height	80mm
Plate Depth	3mm
Width	37mm

Wall-mounted radio transmitter with integrated light sensor with dusk/dawn function.

Automatic control of lights, loads and automation with dusk/dawn function.

The device transmits commands according to the measured light level to the associated receiver.

Can be used to control:

- ON/OFF for any load (halogen, fluorescent or incandescent lighting included)
- OPEN/CLOSE for rolling shutters, awnings and screens
- ON/OFF of RGB scenes

Programmable operating times, from 2 to 8 hours, of the associated receiver.

Activation threshold can be configured from 10 to 150 lux.
