Operating Temperature	-10°C ~ +55°C
Radio Frequency	868.3 MHz

Dimensions

Depth	20mm
Height	86mm
Plate Depth	1.5mm
Width	86mm

Electrical

Replacement Battery	CR2430
Voltage	3V

Wireless switches can be used to control any of the receivers in the Wise Controls range. The function of the switch, and each of its buttons, depends upon the function of the wireless receiver it is programmed to. Therefore a single button can be used for a variety of functions including, but not restricted to, on/off, on/off and dimming, or master off only.

Wise vogue switches are recessed. They are battery powered and a CR2430 battery is included with each unit. The CR2430 Battery has a life span of 4-5 years.
