

## Two channels transmitter TVTXL868B02

2-channel transmitter with battery power supply.  
It can be inserted inside the existing push-buttons.  
Sound signalling for flat battery.

### Description of the product

UHF band transmitter with PPL controlled carrier frequency. This type of transmitter is used to remotely start electrical and electronic door opening mechanisms in compliance with current standards.  
This appliance transmits a rolling code type signal to prevent duplication and guarantee maximum secrecy.

### Safety rules

- Do not keep or use the manual transmitter in places that are damp, where there is steam, high air humidity, dust or where it is exposed to the direct rays of the sun or similar environmental conditions.
- Do not let the manual transmitter drop: it could be damaged or its range of action reduced.

### Attention

- The operator is in no way protected against interference from other telecommunication equipment or systems (e.g. authorised radio systems working on the same frequency range).
- If you are having problems with its range of action, fix the manual transmitter up high. Change the battery if necessary.

### Changing the battery

- Keep the batteries out of the reach of children. Call a doctor immediately if a battery is swallowed.
- Explosion hazard if the battery is substituted incorrectly.
- Replace the battery with a CR 2032 type battery only.
- Always wrap the battery up, both when it is being stored and when it is being disposed of. The battery should not come into contact with other metal objects as it could cause the battery to run down, catch fire or be damaged.
- Dispose of damaged or finished batteries immediately in compliance with the law. To this end, contact the authorities for safeguarding the environment or the centre for disposing of waste materials in your area.

- Do not throw the battery away with household rubbish.
1. Open the cover.
  2. Take the old batteries out and put the new ones in in the same way.

**Pay attention to correct polarity (+/-)!**

### DECLARATION OF CONFORMITY TO THE EU DIRECTIVES

The transmitter conforms to the essential requirements and provisions laid down by the R&TTE 1999/5/EC directive. A copy of the declaration of conformity (DoC) is available on the site: [www.telecoautomation.com/ce](http://www.telecoautomation.com/ce). The directives and norms that have been applied are:

- European directive on EMC, 89/336/EEC
- EN 300220-1, EN 300683, EN 60950

### Guarantee

The guarantee complies with the law. If the guarantee has to be used please refer to the specialized retailer. The right to the guarantee is applicable only for the country in which the manual transmitter was purchased. The batteries are not covered by the guarantee.

### Technical specifications

Carrier frequency	868.3 MHz
Modulation	FSK
Power supply	3 V ± 10% (lithium battery CR2032)
Operating temperature range	-10° ÷ +55°C
Box dimensions (mm)	45 x 33 x 11
